Suspension of Southbound Booking Acceptance - AAA / ASAL

Dear Valued Customer,

The ongoing industrial action at Australian Ports & Terminals has created significant disruption to COSCO's South East Asia service network. We now have vessels on our AAA1 / AAA2 / ASAL services that have been delayed around the Australian coast for 2-3 weeks and this is likely to worsen.

The impact we now faced is October southbound voyages across AAA1 / AAA2 / ASAL will be missed or delayed by up to 3 weeks. As such, COSCO must take immediate measures for Weeks 41-42 to stop all southbound booking acceptance ex SEA region either loading or connecting onto the following vessels.

Until we have a clearer picture on the schedule recovery, this decision will stand until further notice.

Week 41	AAA1	OOCL Brisbane V:194S
	AAA2	OOCL Texas V:175S
	ASAL	Jazan V:119S
Week 42	AAA1	OOCL Houston V:223S
	AAA2	COSCO Antwerp V:164S
	ASAL	OOCL Panama V:280S

This is a tough decision COSCO has made and we thank you for your understanding and the inconvenience caused.

Thank you for your continuous support.

Thanks and Best regards,

The Staff & Management of COSCO SHIPPING OCEANIA
